

A modern office interior featuring a large, curved staircase on the left. In the center, there are several green armchairs and a row of green chairs facing a large projection screen. The screen displays a presentation slide with the text "Science-based innovations at our core". To the right, there are wooden storage units and a green metal frame. The floor is light blue carpeted.

Strong start for the year

Q1/2021 Interim Report presentation
Kai Öistämö, President and CEO

VAISALA

- Business outlook lower limit raised

Orders received

106.1 (89.7) MEUR
+18%

Net sales

92.0 (87.2) MEUR
+5%

Innovation and sustainability at the core of Vaisala, with several highlights in Q1

Innovation and portfolio renewal

Product portfolio renewal proceeding despite COVID-19, new R&D building opened

Strong performance in life science & wind lidars

Positive impact from megatrends such as renewable energy and health and well-being

100% renewable electricity

Carbon footprint (scope 2 emissions) reduced 97% from 2014 baseline

Sensors on Perseverance at Mars

Part of first-ever meteorological observation network on another planet

Q1 orders received increased by 18% Y/Y

- Increase in both business areas
- Increase in renewable energy, ground transportation, and industrial instruments market segments
- Weakness in aviation market continued
- Increase 23% with constant currencies

Q1 order book increased by 10% Y/Y

- Increase in both business areas
- Increase in all market segments in Industrial Measurements
- Increase in renewable energy, ground transportation, and meteorology market segments but decrease in aviation in Weather and Environment
- Order book with delivery this year increased by 17% Y/Y

Q1 net sales grew by 5% Y/Y

- Growth in Industrial Measurements and about flat in Weather and Environment
- Growth in life science, industrial instruments, renewable energy, and ground transportation market segments
- Growth 9% with constant currencies

Excellent performance

- Orders received increased in all market segments
- Economic recovery in China boosted growth of orders received
- Growth of orders received 29% with constant currencies

Net sales growth of 12% increased operating result

- Operating result EUR 9.4 (7.6) million, 23.8 (21.4) % of net sales
- Net sales growth strong in life science and power industry market segments and good in industrial instruments, but net sales declined in liquid measurements
- Net sales growth 17% with constant currencies
- OPEX at previous year's level
- R&D expenditure 12.1% of net sales

Strong growth in orders received

- Orders received increased in renewable energy and ground transportation market segments
- Meteorology market segment flat
- Weakness continued in aviation
- Growth of orders received 19% with constant currencies

Operating result increased as a result of lower operating expenses

- Operating result EUR -0.9 (-2.4) million, -1.7 (-4.6) % of net sales
- Net sales grew in renewable energy, ground transportation, and meteorology market segments, but decreased in aviation
- Net sales growth 4% with constant currencies
- OPEX lower compared to previous year due to more efficient ways of working triggered by the COVID-19 pandemic
- R&D expenditure 16.1% of net sales

A low-angle, upward-looking photograph of modern skyscrapers. The buildings are constructed with glass and steel, featuring a grid-like pattern of windows. The sky is a vibrant blue, filled with soft, white cumulus clouds. A diagonal line divides the image, separating the architectural scene on the left from a plain white background on the right.
