

Calibration Care for Vaisala Instruments

Selecting a high performance instrument brand, like Vaisala, means that the measurement accuracy and reliability is critical to your business. Even the highest performing measurement instruments require regular calibration to ensure out-of-the box factory performance. Vaisala has been providing high-quality calibration services since 1958. As your instrument provider, we also want to be your service partner to ensure you get the greatest value out of our products. Let us care for your products!

Benefits

- Customer loyalty based pricing
- Priority handling of your order
- No hassle service - just send us your product, we know what you want

Calibration Care in a Nutshell

- Discuss once, receive services for several years
- Customer selected calibration and defined documentation requirements
- Free shipping, both to and from Vaisala
