

## Premium Care for Vaisala Instruments

Selecting a high performance instrument brand, like Vaisala, means that the measurement accuracy and reliability is critical to your business. Even the highest performing measurement instruments require regular calibration and maintenance to ensure out-of-the box factory performance. Vaisala has been providing high-quality calibration services since 1958. Let us care for your instruments!

Choose Premium Care when purchasing a new unit to enhance your calibration service!

Ask for availability for your instrument.
