Discontinuation of Vaisala LTS2005 Lightning Tracking Software

Dear valued Vaisala customer,

Production of Vaisala Lightning Tracking Software LTS2005 will be discontinued. This application has been included as a part of our Lightning offering for approximately 15 years, and the ever-changing technological landscape has compelled us to renew our lightning display software platform.

We apologize for any inconvenience this may cause you or your organization. New orders for LTS2005 will be acknowledged only until December 31, 2021. Items impacted by this discontinuation are as follows:

LTS01	LTS2005 Software on USB & DVD
LTS02	LTS-Ascii Option
LTS03	LTS-Auto Image Save
LTS04	Replacement License
LTS05	Demo Copy of LTS01
LTS06	Upgrade Demo to LTS01
LTS07	LTS01 Upgrade on DVD and USB
MAPMR-TAB	Custom Map Medium Resolution
MAPHR-TAB	Custom Map High Resolution
CMD50-TAB	Full Resolution Map

Remaining new orders that have been placed before December 31 will be accommodated no later than July 1, 2022.

Spare parts, replacement software, and license renewals will continue to be available through December 31, 2023, with an additional year provided for technical support. Exceptions will only be accommodated for individuals with existing service contracts extending beyond December 31, 2024. The attached Technical Reference (DOC235914) provides additional details for associated and supported OS/hardware components.

Looking ahead, Vaisala will continue to focus on bringing innovative solutions to our customers subscribing to NLDN/GLD360 data, as well as our precision network customers. For more information, please visit our website:
