

# Vaisala pre-silent newsletter Q1/2026

This pre-silent newsletter summarizes the key events of the first quarter of 2026, as the quarter is coming to an end.

Vaisala's silent period begins on Tuesday, March 24, 2026, and the Interim Report for January–March 2026 will be published on Friday, April 24, 2026.

## Changes in the financial reporting structure and new reportable segments

Vaisala [announced](#) on March 17, 2026, that it has decided to change its financial reporting structure as of January 1, 2026, to provide investors with relevant information on its three businesses.

In the new structure, Vaisala will report financial information on three reportable segments: the Industrial Measurements business area, the Xweather business area, and the Weather, Energy, and Environment business area. Vaisala also provided comparative information for 2025 according to new reportable segments.

## Business outlook for 2026

*Published in the Financial Statements Release January–December 2025*

Vaisala estimates that its full-year 2026 net sales will be in the range of EUR 600–630 million (2025: EUR 597 million) and its EBITA will be in the range of EUR 95–110 million (2025: EUR 94 million).

## Market outlook for 2026

*Published in the Financial Statements Release January–December 2025*

Industrial markets are expected to grow, driven especially by the data center and semiconductor industries. Life science and power markets are expected to grow as well.

Mature meteorology and aviation markets normalized during 2025 after two years of exceptionally high demand. These markets are now expected to remain stable compared to the 2025 year-end levels.

Renewable energy markets declined in 2025 as wind resource assessment markets slowed down significantly. In 2026, renewable energy markets are expected to remain stable compared to the 2025 year-end level.

Markets for Xweather subscription sales are expected to grow.
