

Vaisala Service Certification Program

/ MAINTAINING HIGH QUALITY WEATHER SYSTEMS

VAISALA

Certified Partners Builds Strong Relationships

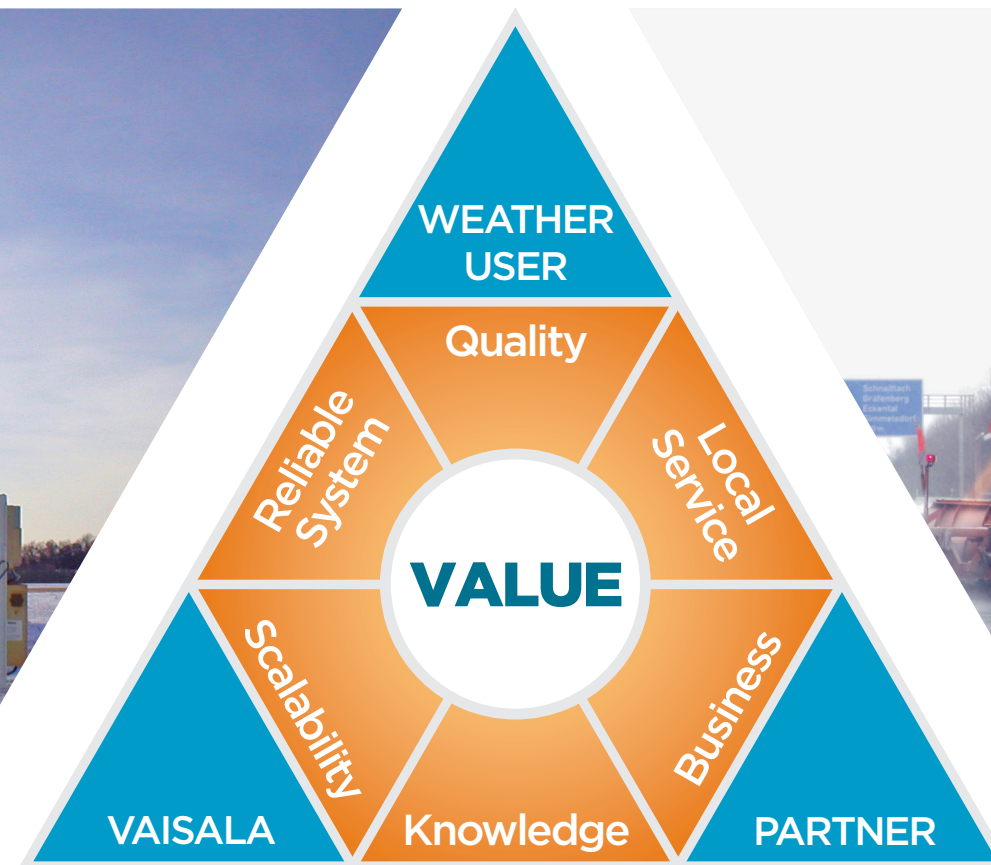

Technology by its very nature requires technical support and service to the buyer, so it remains operational at all times. Vaisala works with service partners around the world to ensure users of weather information have the highest quality data for decision making or scientific study.

Vaisala offers a certification program for service contractors to ensure they are properly trained, supported by Vaisala, and so the weather user has piece of mind that their equipment will operate at all times just like the weather.

Why Become Certified Service Contractor?

- Opportunity for additional business in your area
- Easier to get weather users interest in your company
- Appear on Vaisala's authorized service partner list
- Your personnel will always have the latest knowledge of Vaisala products
- Vaisala is there with you to ensure your customers receives the best service

How does this benefit the weather user?

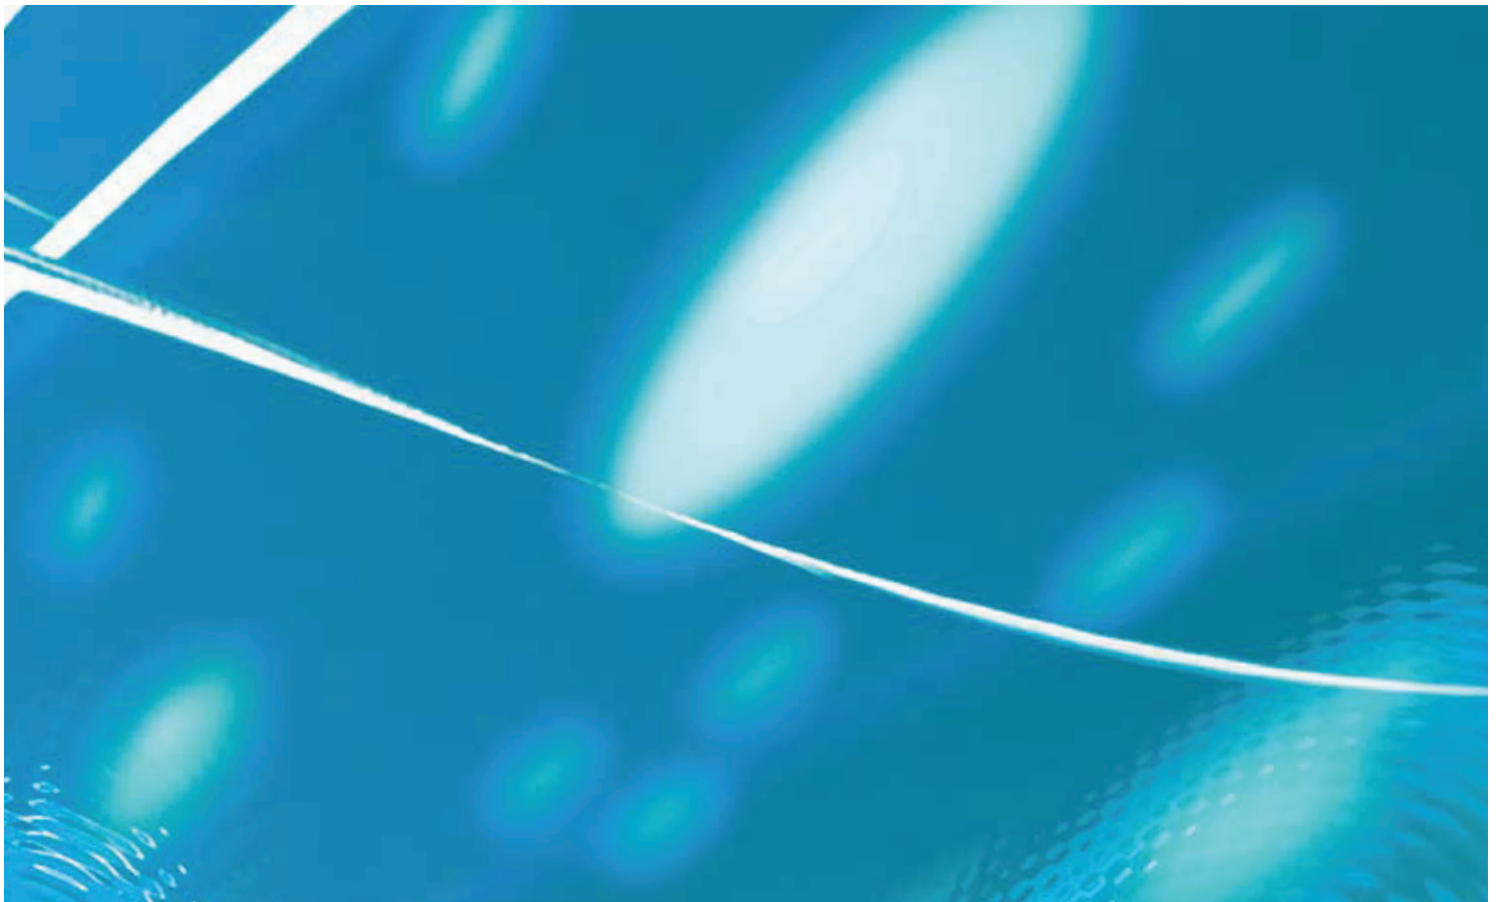

- Ensures they receive quality data for decision making
- Combined knowledge of equipment and local needs means the weather user will receive services tailored to their needs
- Timely, professional, local support
- Service is cost effective allowing user to get largest return on investment possible
- Reliable weather system and services

What will you receive from a Vaisala certification?

- Certificate training with exam
- Annual refresher training
- Product bulletins notices
- Support materials online
- Priority technical support
- Spare part support
- Other optional services available
