

Easy, reliable global solution

Unmatched service and support capabilities

Support to count on

We make our clients' lives easier with our easy to use, turnkey WindCube® product suite that enables customers to harness the power of wind energy efficiently and affordably.

Unique among lidar providers, Leosphere, a Vaisala company, has a truly global reach. Our size and well-established business practices allow for scalability, worldwide service provision, and stability in changing economic environments.

We are able to reliably meet demand, provide quick and correct servicing, and keep customers' wind energy projects up and running wherever they are, onshore or offshore.

Leosphere, a Vaisala company, offers the best warranty in the industry, as well as robust standard and premium service levels. For example, for the WindCube vertical profiler, we provide a 15-day case duration guarantee for workshop repairs,

and our premium on-site repair option includes guaranteed mean time to repair.

Our support extends to ongoing training, including online refreshers through our e-learning platform, to ensure you get the most out of your WindCube technology.

Unrivalled industry and thought leadership: 2,000+ lidar units, 5,000 deployments

2 factories, 7 global service centers

Delivering value every step of the way

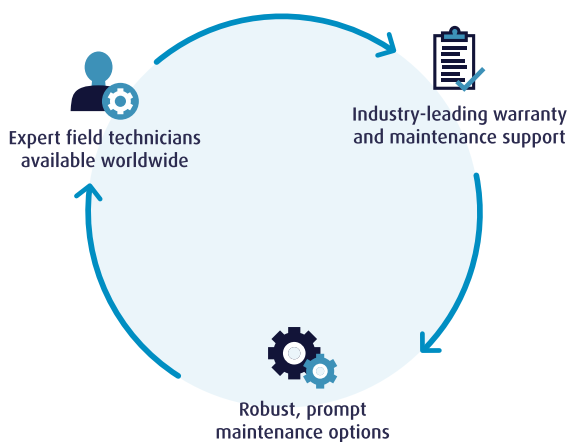

Leosphere, a Vaisala company, provides the most comprehensive solutions and service available, no matter where you are. In addition to our two factories, we maintain seven global service centers, and offer a variety of solutions that make deploying and operating lidar even simpler.

Easy, reliable global solution: Robust support offerings

- Extensive training, including online training refreshers, on-site or remotely
- Full maintenance capabilities that maximize operation continuity
- Installation and system integration support
- Technical and scientific support

Innovative lidar solutions from a one-stop shop: Turnkey offerings

- Standalone power supplies
- 4G remote communication
- Security fencing
- Data analysis software

Why Leosphere, a Vaisala company?

We are modern innovators, scientists, and discoverers who enable our customers to harness the power of wind energy in new ways. We are driven by passion, relentless curiosity, and the desire to create a better world, as evidenced in our commitment to four guiding principles:

1. Trustworthy, superior metrology
2. Unrivalled thought leadership
3. Innovative lidars from a one-stop shop
4. Easy, reliable global solution

As a result, Leosphere, a Vaisala company, is the iconic and trusted gold standard in wind lidar. Our turnkey WindCube product suite offers innovative, reliable, and highly accurate solutions for thousands of customers across the globe. All of this has enabled us to be catalysts for change and ambassadors for wind energy, always advancing the field and those we serve.
