

Sustainable equipment & storage strategies for winter road maintenance

VAISALA

Equipment calibration

Keep yours up to date by calibrating prior to each winter season.

Win: Save as much as 50%.

Equipment upgrades

Modernize operations while optimizing the budget.

Win: Greater efficiency, precise (and less) application, optimized operator time.

Measurements

Know whether you're achieving every one of your goals.

Win: Reduce waste by 10% - 30%.

Proper salt storage

Store 100% capacity, distributed across the state, and secure against runoff.

Win: Fewer service delays, minimal environmental impact.
