

# How RS41 E-models help reduce waste from sounding operations

**VAISALA**

Vaisala Radiosonde RS41 E-models combine high-quality atmospheric sounding data with innovative, biodegradable materials to help reduce plastic waste originating from sounding operations.

1

## **66% less plastic**

Using biodegradable and plastic-free Vaisala BioTwine™ and Vaisala BioCover™

2

## **Biodegradable mechanical parts**

Including cover, insulation, fasteners and string pin

3

## **Same world-class data**

Performance is equal to the standard Vaisala Radiosonde RS41
